Email- Dr Ishrat Khan - ishrat.n.khan@gmail.com or Prof Atul Kalhan – atulkal31@hotmail.com by January 31st, 2024

There are no registration charges.

Format for the Study Day

The aim of this course is to provide interactive teaching sessions for the Specialty Trainees in Diabetes & Endocrinology, which serve as an ideal revision aid for the Specialty Certificate Examination. The clinical scenarios have been designed to evoke discussion on diagnostic and management related dilemmas faced in Diabetes & Endocrinology practice. There will be mock MCQ questions in each session to provide the candidates with a flavour of the topics expected to be tested in SCE Diabetes & Endocrinology.
